## Windmill Cottage Glazing

Waller Glazing Services worked closely with the building division on this private project to carry out Windmill Cottage glazing. The project required a bespoke aluminium conservatory roof, 5 sets of aluminium bi-fold doors and a large cathedral glazed gable screen. Additionally the installation of uPVC windows was required. -Due to the construction of the new building there were several areas that required additional design elements compared to a standard building. -By working closely with suppliers the end result was outstanding as the photographs show.

## Waller Glazing Services

Waller Glazing services works include window repairs. This consists of double glazed units, window handle and hinges. We also carry out complete aluminium and uPVC window and door installations.-Furthermore we would be happy to price any maintenance or repairs. We stock a large range of fire and safety glass which we can cut to size while you wait.

## Waller Building Services

Waller Building Services residential works start at smaller refurbishments through to extensions and new builds.- If you are planning any size of -project, we would be delighted to provide you with a quotation.

## A Company Built on Trust

Waller Building and Glazing Services are also members of Fensa, Constructionline, Chas and Safecontractor.. With these accreditation you know that we are a company you can trust.
