Dartford School Toilet Refurbishment

Waller Building Services carried out this Dartford School Toilet Refurbishment during the school summer holidays. The- refurbishment of 8 toilet blocks was carried out over a six week period. This was a challenge due to the amount of works required. We also had to manage our workforce due to the Covid-19 situation which was effecting the nation.

The refurbishment included new layouts to utilise as much space as possible. In two of the toilets, space was extremely limited. To overcome this we installed a solid surface trough sink which meant that there were the required amount of basins for the toilet block. The school used a consistent colour scheme in the toilet blocks throughout creating a uniformity with each area being available to any age and gender.

Challenge

As we started the works it became apparent that the existing plumbing and drainage was antiquated and would not be adequate for the new toilet blocks.- We needed to overcome this by installing a new drainage system as well as new plumbing fittings.

For similar projects that we carry out in schools please click on the following link to the education section of our website-https://www.wallerservices.com/schools-education-clients/

Building Services We Provide In Schools

The building services we provide include smaller refurbishments through to extensions and new builds. We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

Glazing Services We Provide In Schools

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
