Social Club Toilet Refurbishment

Waller Building Services has just completed this social club toilet refurbishment in Lordswood, Chatham in Kent. This project consisted of the refurbishment of both the male and female toilets and involved the installation of new decorative wall panelling, suspended ceilings, toilet cubicles with panelled ducting, vanity units and sanitary ware. The addition of new LED lighting gave the areas a clean, fresh feel. The project was completed whilst the social club was open with little disruption.

To view other case studies of projects we have completed within the commercial sector please click on the following link to our website-https://wallerservices.com/building/commercial/-

Commercial Building

Commercial building is a growth area for Waller Building. We work in the education and healthcare sectors. The retail sector is also an area of growth. This is due to many warehouse developments in the south east. We install toilet and kitchen areas. We also install commercial window and doors. For examples of our services, take a look at our commercial glazing case studies.

Waller Building

In the last 25 years, Waller Building has worked on many commercial projects. Our reputation is growing fast. The services provided range from refurbishment through to extensions and complete new builds. Additionally our glazing department repairs windows and glass. We also install uPVC and aluminium windows and doors. One of the major areas that we are continuing grow is window replacement in schools. Waller Associates is Fensa, Chas, Constructionline and safecontractor approved. We are also a Kent County Council approved contractor. You can be assured that we are a company that is built on trust. For any future projects, we would also be happy to give you a price for any refurbishment works.
