Project 367: Nursery School External Play Areas

Construction Details: Carpentry, Ground Works, School Improvement

View this case study on WallerServices.com

Nursery School External Play Area

A primary school was keen to improve their nursery school external play areas. They envisioned large open and fun areas for their younger pupils. Working alongside the headteacher, we designed the new layout for the new play zone which included a large artificial grass area with an integrated road way, an enclosed mud kitchen and an independent wildlife garden. Additionally, a resin pathway was laid to link to an external sensory room.

Stage Area

The main school playground benefited from a bespoke stage area complete with seating. We removed the original play equipment which was past it's best and opened up the area into a nice open space. With the addition of artificial grass the area is now suitable for use all year round. The school are extremely happy with the transformation.
