Cancer Treatment Room Essex

In November, 2005, work commenced on a cancer treatment room in Essex. We started withthe -construction of a concrete bunker. This was to house the new Varian 600C cancer treatment machine at V.R.C.C., Laindon, Essex. The project consisted of forming the concrete piled foundations and building the concrete and steel bunker. As well as this we carried out the internal fit out. The project was completed in March 2006. The bunker is over 15ft high and 6 ft thick and was constructed using 773 tonnes of steel reinforcement and concrete. Due to this installation, V.R.C.C. is now the most advanced private centre in Europe for the treatment of cancer in cats and dogs.

Commercial Building

Commercial building is a growth area for Waller Building. We work in the education and healthcare sectors. The retail sector is also an area of -growth. This is due to many warehouse developments in the south east. We install toilet and kitchen areas. We also install commercial window and doors. For examples of our services, take a look at our commercial glazing case studies.

Waller Building

In the last 25 years, Waller Building has worked on many commercial projects. Our reputation is growing fast. The services provided range from refurbishment through to extensions and complete new builds. Additionally our glazing department repairs windows and glass. We also install uPVC and aluminium windows and doors. One of the major areas that we are continuing grow is window replacement in schools. Waller Building is -Fensa, Chas, Constructionline and safecontractor approved. We are also a Kent County Council approved contractor. You can be assured that we are a company that is built on trust. If you are planning a building project we would be delighted to provide you with a quotation. We would also be happy to give you a price for any refurbishment works.
