Installation of Two School French Doors

After having a new play area installed the head teacher requested that the view from two classrooms be improved. In short, the existing single doors did not allow enough natural light to enter the classrooms. The views from within were also restricted. The solution was to install two school French doors.

To overcome this issue, brickwork was cut back. Double doors with release bars and side vision panels were installed. This allows more natural light to enter the rooms. In turn this provided better access to and from the play area for the children Additionally the new doors are also more accommodating for wheelchair access when required.

Waller Glazing Services

In the last five years, Waller Building and Glazing has worked in over 125 schools. Our reputation in the education sector is growing fast. The glazing services we provide include smaller repairs through to completed UPVC and aluminium window and door installations. Waller Building and Glazing is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can also be confident that we are a company that is built on trust. If your school is planning any size of glazing project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Glazing Services We Provide in Schools

We cover all the building as well as glazing services that a school would require. This includes, glass repairs and window installs. We also install repair handles, hinges and double glazed units. Check out our website case studies to see projects we have recently completed.
