New Aluminium Double Doors

We carried out he forming of a structural opening and installation of a set of new aluminium double doors and window at Iwade Primary School Nr Sittingbourne.

Due to the jubilee bank holiday weekend the schools half term only had three working days for the works to be carried out. This meant we were very limited for time to carry out the knock through, installation of new doors, plastering works and decorations, but with great team work by our operatives we managed to meet the deadline. Consequently, the school were extremely pleased with the finished result and said that the door looks like it had always been there and the school cleaners complemented us on how clean we had left the school after some really messy work.

Waller Building Services

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can be confident that we are a company that is built on trust. If your school is planning any size of building project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services in Schools

We cover all of the services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website to see projects we have completed. Additionally, view the case studies of the services we have recently completed.

Waller Glazing Services

We also have a glazing division that works with schools. Waller Glazing projects range from glass repairs through to complete window installations.
