Grade II Listed Building Summer Room

Grade II Listed Building Summer Room –-The client owns a beautiful Grade ll listed Farmhouse. They required a modern feel without being detrimental to the historic features of the property. Consequently the summer room was constructed in seasoned oak. In addition, oak full height double glazed units giving a panoramic view of the garden and surrounding area were installed. LOW-E gas filled coated glass units were used to reduce the heat loss in this heavily glazed area. Toughened safety glass was also used to meet building regulations for low level glazing.

Waller Building Services

Established in 1993, Waller Building Services has been growing ever since. We regularly work in the residential and commercial sectors. Clients include schools, local authorities and private customers. Our building services consist of smaller refurbishments through to extensions and new builds.- Waller Building Services is a Fensa, Chas, Constructionline and Safecontractor company. We are also a Kent County Council contractor.-You can be confident that we are a company that you can trust. Therefore we would be happy to provide a quotation for any size of project you may be planning.

Waller Glazing Services

Waller Associates introduced Waller Glazing Services in 2010. The glazing projects range from glass repairs through to complete window and door installations. Our customers are commercial and residential. You can view examples of our glazing projects on our web site. Equally you can also see our building case studies on the website.
