Bathroom and En-Suite Installation

This project involved the renovation of the family bathroom and en-suite installation. We also added a seperate WC. As well as this, new high quality sanitary ware was installed also. This included p-shaped baths with glass shower screens and vanity units under each basin to provide extra storage. The separate lavatory was made larger to allow for a small vanity unit hand basin. Due to the age of the property, alterations were required to the existing services. This was to bring them up to current regulations. This proved testing at times, but with the right team on board they were achieved.

Waller Building Services

Established in 1993, Waller Building Services has been growing ever since. We regularly work in the residential and commercial sectors. Clients include schools, local authorities and private customers. Our building services consist of smaller refurbishments through to extensions and new builds.- Waller Building Services is a Fensa, Chas, Constructionline and Safecontractor company. We are also a Kent County Council contractor.-You can be confident that we are a company that you can trust.
