uPVC Screens and Access Ramp

External uPVC Screens – We were approached by the school to help them achieve the full potential of covered outside areas that were previously only usable in warmer weather. The solution was to install uPVC glazing screens to the open sided canopies that had been installed in the past. The areas created have been a success for not only the children but parents alike as they have also benefitted from a warmer, dryer place to wait for their children at 'home time'. To make this possible, a new disable access ramp and handrail needed to be installed to allow for the new door opening.

Waller Glazing Services

In the last five years, Waller Building and Glazing has worked in over 125 schools. Our reputation in the education sector is growing fast. The glazing services we provide include smaller repairs through to completed UPVC and aluminium window and door installations. Waller Building and Glazing is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can also be confident that we are a company that is built on trust. If your school is planning any size of glazing project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Glazing Services We Provide in Schools

We cover all the building as well as glazing services that a school would require. This includes, glass repairs and window installs. We also install repair handles, hinges and double glazed units. Check out our website case studies to see projects we have recently completed.
