uPVC Bi Fold Doors, Fire Escape Doors and Sliding Windows

Chattenden Primary School requested that we update their current windows and fire escape doors. This was to three of their classrooms. They asked us to install uPVC bi fold doors, fire escape doors and sliding windows. Unfortunately, the existing aluminium windows were passed their best. Consequently the single glazing was allowing considerable heat loss from each room. The classrooms required replacement fire escape doors and opening windows. This did cause one design problem. Some of the windows opened onto a covered play area used by pupils increasing the risk of injury from collision. However, this issue was overcome by installing sliding uPVC windows. The school also requested that we install bi folding doors in the largest classroom. This completely opened up the classroom making it much lighter inside.

This now enables the pupils to move freely between the classroom and the secure external activity area when required by the teaching staff.

Waller Glazing Services

In the last five years, Waller Building and Glazing has worked in over 125 schools. Our reputation in the education sector is growing fast. The glazing services we provide include smaller repairs through to completed UPVC and aluminium window and door installations. Waller Building and Glazing is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can also be confident that we are a company that is built on trust. If your school is planning any size of glazing project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Glazing Services We Provide in Schools

We cover all the building as well as glazing services that a school would require. This includes, glass repairs and window installs. We also install repair handles, hinges and double glazed units. Check out our website case studies to see projects we have recently completed.
