Primary School Reception Extension

We were delighted to be awarded the Bobbing Primary school reception extension project. Our local school required additional space within their reception area. Drawings had previously been produced for the works when the school had another major project carried out several years ago. However the design had to be altered to allow for the inclusion of a new double entrance door set. We contacted Kent Country Council on behalf of the school. Consequently, all of the documentation to gain the necessary permission to proceed with the alterations was obtained. For the building to meet all current building regulations, a new ramp was also installed including a low threshold access to the building for wheelchair users.

The majority of the project was carried out within term time. The school are now able to enjoy their new reception area.

Waller Building Services

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can be confident that we are a company that is built on trust. If your school is planning any size of building project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services in Schools

We cover all of the services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website to see projects we have completed. Additionally, view the case studies of the services we have recently completed.

Waller Glazing Services

We also have a glazing division that works with schools. Waller Glazing projects range from glass repairs through to complete window installations.
