Flush Floor Shower Room

A local client requested some improvement works to their property. -This provided an older family member with her own more comfatable private area. We carried out a full design programme with them to make sure that they were happy. Additionally the new layout was to be arranged with all necessary requirements for building control. We used the existing foot print of the rear extension and a small section of their large lounge. We managed to provide a new bedroom with ensuite flush floor shower room and still retained a dining area linked to the fully refurbished kitchen. The whole family now have a modern, bright and functional house.

Waller Building Services

Established in 1993 Waller Building Services has been growing ever since. We regularly work in the residential and commercial sectors. Clients include schools, local authorities and private customers. Our building services consist of smaller refurbishments through to extensions and new builds.- Waller Building Services is registered with Fensa, Chas, Constructionline and Safecontractor.
