School Classroom Extension

Hollingbourne Primary School had an area of their grounds that wasn't in use. Teaching space is always at a premium therefore it seemed like the perfect idea to enlarge a classroom. Additionally, we -liaised with the Architect, Building Control and the Local Authority on behalf of the school. Consequently this meant less paperwork for the school. The school business manager asked us to go ahead with the School Classroom Extension.

The majority of the building works were carried out in school term. We even encouraged the children to take an interest in the project. By holding a lesson with them when they asked some very interesting and pertinent questions.

Waller Building Services

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can be confident that we are a company that is built on trust. If your school is planning any size of building project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services in Schools

We cover all of the services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website to see projects we have completed. Additionally, view the case studies of the services we have recently completed.

Waller Glazing Services

We also have a glazing division that works with schools. Waller Glazing projects range from glass repairs through to complete window installations.
