## New Drying Area

New Drying Area – This project was carried out to a sheltered scheme for a local authority in Kent. The aim was to improve the environment of those that live in the scheme. This was achieved by carrying out various external works. The works consisted of replacing an existing timber fence, installing new a tarmac drying area including washing lines and a new paved seating area. Additionally we raised timber planters and the new lawn areas and new hardwood benches were installed. We had to overcome the issue of how to access the site due to its difficult location. This was achieved by liaising with the local community. They were very accommodating during the project. This enabled us to deliver materials and plant within close proximity of the working area.

## Commercial Building

Commercial building is a growth area for Waller Building. We work in the education and healthcare sectors. The retail sector is also an area of -growth. This is due to many warehouse developments in the south east. We install toilet and kitchen areas. We also install commercial window and doors. For examples of our services, take a look at our commercial glazing case studies.

## Waller Building

In the last 25 years, Waller Building has worked on many commercial projects. Our reputation is growing fast. The services provided range from refurbishment through to extensions and complete new builds. Additionally our glazing department repairs windows and glass. We also install uPVC and aluminium windows and doors. One of the major areas that we are continuing grow is window replacement in schools. Waller Building is -Fensa, Chas, Constructionline and safecontractor approved. We are also a Kent County Council approved contractor. You can be assured that we are a company that is built on trust. If you are planning a building project we would be delighted to provide you with a quotation. We would also be happy to give you a price for any refurbishment works.
