# Project 153: Replacement Metal Sheet Cladding

**Client:** Maidstone Girls Grammar School

**Programme:** 3 Weeks

**Construction Details:** Asbestos removal, Metal sheet cladding installation

View this case study on WallerServices.com

## Replacement Metal Sheet Cladding

During a recent inspection of the school buildings, it was found that an area of this school had a large asbestos content present. We were tasked with the removal of this asbestos cladding and its safe disposal. We then installed replacement metal sheet cladding which was insulated. These works were carried out during the summer holidays in order to minimise the risk of other areas of the school being contaminated. The project was completed in good time so the staff and pupils were able to return for the new term.

## Waller Building Services in Schools

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast. The services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in your school. You can also be confident that we are a company that is built on trust. If your school is planning any size of project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for you.

## Building Services We Provide

We cover all of the building as well as glazing services that a school may need. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Furthermore the glazing division carries out window repairs. We also install uPVC and aluminium windows and doors. View our case studies to see projects we have recently completed on our website.
