New Composite Classroom Door

A returning school client approached us to install a new composite classroom door. This was to replace an existing window to able to gain access to the garden. We consulted the local authority to gain the necessary permission for the works. We carried them out over the half term period and a weekend.

The works involved the removal of a section of the wall. We then formed a step and installed a new composite door as well as high level window. The colours and styles matched the original window and doors already at the school.

The school were very accommodating with the project and are pleased with the result.

Waller Building Services in Schools

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast. The services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in your school. You can also be confident that we are a company that is built on trust. If your school is planning any size of project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for you.

Building Services We Provide

We cover all of the building as well as glazing services that a school may need. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Furthermore the glazing division carries out window repairs. We also install uPVC and aluminium windows and doors. View our case studies to see projects we have recently completed on our website.
