New School Front Entrance Extension

Hoo St Werburgh Primary school wanted larger entrance and reception area. The plan was to have a modern looking frontage to the school. This was to enhance the look of the school and be a practical space for the office staff. The school asked us to go ahead with the new school front entrance extension.

The project involved extending the current school office and reception areas, providing a modern glazed facade.-Additionally, with the installation of a more sympathetic entrance ramp and steps all in keeping with the feel that the school was looking to achieve.-We began on site during the summer holidays. Furthermore we were able to complete the works within the school's budget. Due to a comprehensive works schedule, we were able to work during school time. We also liaised with the school business manager and alternative entrances to the school were used. Works finished on time for the school's grand re-opening in January 2014. The result was a fantastic looking, modern and spaceous addition to the school.

For more information on the other types of works we carry out in schools click on the following link- https://wallerservices.com/schools-education-clients/
