Additional Parking Bays and Fencing

Following improvement works to the schools entrance gates at Regis Manor Primary School. They requested that we increase the parking facilities at the school including additional parking bays. They also wanted to improve the protection of the children from moving traffic by the introduction of additional fencing. By utilising an unused area of the school grounds, 13 additional parking spaces where created. Each space was clearly defined by the installation of concrete edging stones finishing flush with the new tarmacadam. This removes the need of future line markings. Additionally new ‘child safe’ bow top fencing was installed. This created a safe area for the children to play. Alterations were also made to existing pathways. This provided a safe access to the main playground.

Waller Building Services in Schools

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast. The services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in your school. You can also be confident that we are a company that is built on trust. If your school is planning any size of project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for you.

Building Services We Provide

We cover all of the building as well as glazing services that a school may need. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Furthermore the glazing division carries out window repairs. We also install uPVC and aluminium windows and doors. View our case studies to see projects we have recently completed on our website.
