Sports Hall Refurbishment

We were asked to carry out this sports hall refurbishment by a local academy. The school use the sports hall for many different purposes. Therefore we chose a Flexiflor flooring system, a multipurpose sports floor covering. The flooring used is Sport England approved as well as being backed by the English cricket board. Beneficially it also comes with a 10 year guarantee. To complete the floor installation, line markings were applied providing courts for badminton, netball, volleyball, basketball, cricket and obviously football.

As well as using the hall for educational purposes, the school hire the hall to the public out of hours. We have received good feedback from a wide spectrum of users. Everybody has commented on the improvements to the hall.

Along with the new floor we re-decorated the sports hall throughout. This produced a nice clean and fresh environment for everyone to enjoy. As you can see from the pictures the hall has vastly improvement and is much more welcoming.
