Hospice Extension

This project involved building an extension onto an existing extension. The works entailed effectively bringing out the line of the existing gable elevation. This was to create a larger day therapy area for those who use the hospice to have a more modern space to reflect on during difficult times. The hospice extension consisted of forming a block and beam floor with a portal steel frame and brickwork/timber stud work external envelope to match the existing building. Additionally, a new kitchen area and glazed screen was installed and the existing area was extensively redecorated to give the whole area a completely new feel. The works were completed to a very high standard and left the client incredibly satisfied with the end result.

Commercial Building

Commercial building is a growth area for Waller Building. We work in the education and healthcare sectors. The retail sector is also an area of -growth. This is due to many warehouse developments in the south east. We install toilet and kitchen areas. We also install commercial window and doors. For examples of our services, take a look at our commercial glazing case studies.

Waller Building

In the last 25 years, Waller Building has worked on many commercial projects. Our reputation is growing fast. The services provided range from refurbishment through to extensions and complete new builds. Additionally our glazing department repairs windows and glass. We also install uPVC and aluminium windows and doors. One of the major areas that we are continuing grow is window replacement in schools. Waller Building is -registered with Fensa, Chas, Constructionline and safecontractor. We are also a Kent County Council approved contractor. We are a company that you can trust. If you are planning a building project we would be delighted to provide you with a quotation. We would also be happy to give you a price for any refurbishment works.
