Construction Details: Apartments, Code for Sustainable Homes Level 3, Conservation Area, Conversion, Development, Fire Rating, Flats, New Build, Sound Insulation

View this case study on WallerServices.com

Luxury Apartments

Waller Building Services was commissioned to carry out this project. This was to design and convert existing commercial premises into 9 self-contained luxury apartments. The apartments included five one bedroom, two 2 bedrooms flats. Additionally two new build 2 bedroom penthouses were built on the existing roof. A Grade 1 listed church was opposite the building and in a conservation area. Therefore a sympathetic approach had to be taken with the apartments having a contemporary and modern feel.-The two new builds on the roof needed to obtain Code for Sustainable Homes Level 3 to meet planning conditions. All of the apartments also required a high level of sound insulation between them. Additionally fire rating to protect the escape route was paramount.

Waller Building Services

Established in 1993, Waller Building Services has been growing ever since. We regularly work in the residential and commercial sectors. Clients include schools, local authorities and private customers. Our building services consist of smaller refurbishments through to extensions and new builds.- Waller Building Services is a Fensa, Chas, Constructionline and Safecontractor registered.
