Window Plus Door Installation

Window plus door installation. Waller Glazing Services removed the existing dated crittal windows. We then replaced them with new uPVC windows. This resulted in an improved appearance, increased security and thermal efficiency. Coolite solar controlled glass was fitted to reduce the build up of heat within the classrooms during the summer months. This had previously been a problem. We also installed red aluminium doors which matched the school colours. The doors are in constant use. For this reason we used commercial aluminum doors as they are extremely durable. As a result of the installation the appearance to the front of the school has been completely transformed.

Waller Glazing Services

In the last five years, Waller Building and Glazing has worked in over 125 schools. Our reputation in the education sector is growing fast. The glazing services we provide include smaller repairs through to completed UPVC and aluminium window and door installations. Waller Building and Glazing is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can also be confident that we are a company that is built on trust. If your school is planning any size of glazing project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Glazing Services We Provide in Schools

We cover all the building as well as glazing services that a school would require. This includes, glass repairs and window installs. We also install repair handles, hinges and double glazed units. Check out our website case studies to see projects we have recently completed.
