Testimonial

"Dear Andy,

The purpose of this letter is first and foremost to say Thank You for managing our project so well.

I dare say all building projects uncover unforeseen complications. Our project involved multiple visits by various tradespeople over several weeks. Communication was excellent throughout and the end result pretty perfect.

This project could have been so difficult, but it wasn't. Our project manager was so knowledgeable and so professional in all our dealings that potentially stressful situations just disappeared. I am really pleased we appointed Waller Building Services as our partners, and they will certainly be must first choice for all future projects.

Yours sincerely

David Croft"

Home Improvement Works

A local couple had a vision of how they would like their house to look and working closely together their vision was turned into -a reality. We carried out the following home improvement works. A small dining room and office were knocked through to make a larger living area. -This was enhanced further by the installation of a new side window. Additionally we enlarged an existing window to accommodate the new bay bow window. -French doors were upgraded to patio doors and new radiators were also fitted. Whilst works were being carried out the client required the kitchen window to be enlarged. This was also completed on schedule to allow for the new kitchen to be installed.

All of our works were checked by Building Control. A certificate was presented to the client to confirm that all of the alterations had met building regulations.

Waller Building Services

Waller Building Services was established in 1993 and has been growing ever since. We regularly work in the residential and commercial sectors.
