Decorating Works

Our decorating works improved the learning environment, maintenance and appearance of the rooms we worked in. -The school had had a long term leak of water which had been fixed earlier in the year and allowed to dry out. This meant that no more leaks would affect look of the classrooms. The work consisted of completely redecorating the Rowling Learning Zone, Slytherin Classroom. Additionally we decorated the toilet block and the stairwell adjoining the rooms. We were restricted by our time frame however we achieved completion during half term. Therefore all of the works were finsihed before the students returned.

The school were very pleased with the speed and quality with which the work was done.

Waller Building Services

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast.
