School Disabled Access Ramp

We were asked to design and construct a new school disabled access ramp. Brampton Primary Academy asked Waller Building Services to improve the standard of their existing disabled facilities. This ramp would then be upgraded to the current regulations. Working to a tight schedule we managed to conclude the majority of the works in the term break to avoid putting both children and staff at risk. In the early stages of the project we proposed a design variation to improve the final look of the project incorporating custom made powder coated handrails as opposed to the off the shelf steel with a painted finish originally conceived.

Waller Building Services in Schools

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can also be confident that we are a company that is built on trust. If your school is planning any size of building project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.
