Primary School Ground Works Including Fencing

Primary school ground works including fencing – The school asked Waller Building Services to form a DDA compliant access ramp and refuge area to fit their existing fire escape plans. We formed and landscaped a new ramp including modifying the existing retaining walls and fencing. We also installed new security fencing with a new access control vehicle gate. -In another area we did some landscaping to an under utilised area including a privacy screen of logs and an extension to a slabbed area.

The school also requested that we adjust the 4 posts supporting a sail canopy that had moved over time and needed re-tentioning.

Waller Building Services

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can also be confident that we are a company that is built on trust. If your school is planning any size of building project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide

We cover all building and glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.
