New School Pedestrian Entrance

St Katherine's School approached us to construct a new school pedestrian entrance. This was due to following a-recommendation from the local authority. An-additional entrance to the school ground was required to provide safe access for children and parents.-We assisted the school all the way through the project. From the production of the drawings and submitting the-relevant documentation required for the planning-application, to the installation of the entrance gates.
The works were carried out over the summer holidays. This meant that the school was ready for the new school term. In fact the school is looking-forward to using them for many years to come.

Waller Building Services

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. As a result, you can be assured that our staff are suitable to work in your school. You can also be confident that we are a company that is built on trust. If your school is planning any size of building project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.
