Client: Rivermead School: Gillingham, Kent, Additional Intervention Areas

Programme: 2 Weeks

Construction Details: Access Ramp, Bespoke joinery, Decoration, Floor Coverings, School Improvements

View this case study on WallerServices.com

School Intervention Areas

Rivermead School required additional school intervention areas. Each area provides addition levels of support for students. Waller Building Services carried out the works in the summer holidays. This meant that rooms were ready for the new school year. Ground works prepared the area for the installation of the two new wood cabins. When in position fully compliant ramps were formed. Due to the new ramps the access is fully compliant with DDA regulations.

Waller Building Services

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can also be confident that we are a company that is built on trust. If your school is planning any size of building project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed. As well as building services, our glazing division also offers a full range of school glazing services.
