School UPVC Door Installation.

We recently carried out a school uPVC door installation at Newington CofE Primary school in Sittingbourne. The school requested that we replace two existing wooden doors with new double glazed UPVC doors. Each door was situated in separate classrooms. The doors were fitted with push bars which allows for a quick and easy exit. External lockable door handles were also fitted which means that students can easily gain entrance to the classrooms. This also provides additional security for the school with the site manager locking the doors at the end of the day. The new doors will ensure an improved thermal efficiency ensuring warmer classrooms during the winter as well as enhancing the look of the building.

Waller Glazing Services

In the last five years, Waller Building and Glazing has worked in over 125 schools. Our reputation in the education sector is growing fast. The glazing services we provide include smaller repairs through to completed UPVC and aluminium window and door installations. Waller Building and Glazing is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can also be confident that we are a company that is built on trust. If your school is planning any size of glazing project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Glazing Services We Provide in Schools

We cover all the building as well as glazing services that a school would require. This includes, glass repairs and window installs. We also install repair handles, hinges and double glazed units. Check out our website case studies to see projects we have recently completed.
