Office and Warehouse Refurbishment

We were asked to carry out an office and warehouse refurbishment. This was for this local training and recruitment centre. We installed new high level lighting and high level warehouse heating. -The roof was cleaned and repaired where required. The client also requested that we change the layout of the offices. This will benefit the future plans of a growing business. A new medical room, kitchen area and boardroom were formed as well as the staff toilets were also completely refurbished. In addition we upgraded the building to current standards. New air conditioning, lighting and electrics was installed. This will vastly improve the overall working environment.

Commercial Building

Commercial building is a growth area for Waller Building. We work in the education and healthcare sectors. The retail sector is also an area of -growth. This is due to many warehouse developments in the south east. We install toilet and kitchen areas. We also install commercial window and doors. For examples of our services, take a look at our commercial glazing case studies.

Waller Building

In the last 25 years, Waller Building has worked on many commercial projects. Our reputation is growing fast. The services provided range from refurbishment through to extensions and complete new builds. Additionally our glazing department repairs windows and glass. We also install uPVC and aluminium windows and doors. One of the major areas that we are continuing grow is window replacement in schools. Waller Building is -Fensa, Chas, Constructionline and safecontractor approved. We are also a Kent County Council approved contractor. You can be assured that we are a company that is built on trust. If you are planning a building project we would be delighted to provide you with a quotation. We would also be happy to give you a price for any refurbishment works.
