School Gym Window Installation

We carried out this school gym window installation at Canterbury Road school in Sittingbourne, during half term. The school asked us back after installing windows to another area of the school previously. All of the windows were high level and scaffold towers were required. The original windows were single glazed and wooden framed. Upgrading the windows to uPVC double glazing enhances the look of the school. Additionally the new windows improve the thermal efficiency of the gym which will lower the school's heating costs. The glass is toughened safety glass which improves safety.

Teleflex window winders were also fitted to high level windows. This means that the windows can be easily opened and closed. This increases airflow during warm conditions.

Waller Glazing Services

In the last five years, Waller Building and Glazing has worked in over 125 schools. Our reputation in the education sector is growing fast. The glazing services we provide include smaller repairs through to completed UPVC and aluminium window and door installations. Waller Building and Glazing is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can also be confident that we are a company that is built on trust. If your school is planning any size of glazing project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Glazing Services We Provide in Schools

We cover all the building as well as glazing services that a school would require. This includes, glass repairs and window installs. We also install repair handles, hinges and double glazed units. Check out our website case studies to see projects we have recently completed.
