School Staff Toilet Refurbishment

Waller Building Services were asked to complete this school staff toilet refurbishment project at Maidstone Grammar School for Girls. The toilets were dated and in the need of modernizing. We carried out the works during the February half term holiday which ensured the least amount of disruption to the school. The refurbishment entailed forming a new configuration as well as new anti slip flooring and cubicle system. We also added a new vanity unit, sanitary ware and Whiterock cladding, which acts as a splash back for the new hand dyer. Additionally, LED lighting enhanced the improvements with a modern look. The final touches were added with decoration throughout with acrylic eggshell paint to provide a fresh clean finish.

Waller Building Services

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast.
