Grammar School Entrance Modification

Waller Building Services has just completed this grammar school entrance modification. The school asked us to modify their visitor & 6th form entrance. The original layout meant that once through the front doors people could gain access to areas of the school which were for staff and students only.- With this in mind we replaced the entrance doors and added internal aluminium doors and glass screen, this included security locks with a security system that works with the 6th form students & school staff ID cards. Additionally we knocked through a wall to an adjoining office creating a glazed reception opening where visitors can be greeted immediately. Security has been increased with the new waiting area. As well as these works we replaced an existing Crittall screen with an aluminium framed, double glazed upgrade.

Waller Building Services

In the last five years, Waller Building has worked in over 125 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor approved company. We are also a Kent County Council approved contractor. All of our workmen are DBS checked. This means you can be assured that our staff are suitable to work in schools. You can also be confident that we are a company that is built on trust. If your school is planning any size of building project, we would be delighted to provide you with a quotation. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.
