Milton Court Primary Academy Toilet Refurbishment

We have just completed the Milton Court Primary Academy Toilet Refurbishment project in Sittingbourne, Kent. The project entailed the refurbishment of two toilet blocks. The boys toilets required the removal of a steel trough urinal and replacing it with a single cubicle . This included adapting the waste supplies as well as installing a removable duct panel. Additionally, new cubicles, a vanity unit, sanitary ware and a steel wash trough installed.-

Installation of a new wash trough was added to the girls toilets. The existing cubicles were re-used, keeping down the overall cost for the school. The boys and girls toilets were plastered and decorated with the addition of new suspended ceilings.
