Maidstone Grammar School Staff Toilet Refurbishment

We were awarded the Maidstone Grammar School Staff Toilet Refurbishment project after a tendering process via the school's construction consultant. The original room was previously a male only staff toilet block and the architects plans were designed to create two seperate toilet areas, one male and one female.

We completely stripped out the original toilet block and added a suspended timber floor which was constructed to raise the level with new drainage runs installed beneath. Additionally, a new patitioning wall created two seperate rooms. We installed heavy duty cubicles to each room with an additional urinal trough in the male toilets. Hygiene and accoustic suspended ceiling tiles were added complete with LED lighting.

Working closely with the architect, we were able to overcome some design problems that were not apparent before the project began. The completed area has become far more practical for the staff.

For information on other building and glazing projects that we carry out in schools, please click on the following link-https://wallerservices.com/schools-education-clients/

Waller Building and Glazing Services

In the last six years, Waller Building has worked in over 135 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. -All of our workmen are DBS certified. This means that our staff are suitable to work in schools. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide In Schools

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

Glazing Services We Provide In Schools

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
