Automated School Gates

We installed these automated school gates for Sittingbourne Community College.

A local secondary school required improvements to its site security which provided a protected environment for its staff and students. Working closely with the school it was decided to install gates to the access points while still leaving ample parking for visitors. Bespoke fencing and gates where manufactured matching the existing fencing currently installed around the schools perimeter. Access control was added to provide easy access for staff members while visitors can talk directly to the schools receptionists via the integrated intercom.

For information on other building and glazing projects that we carry out in schools, please click on the following link-https://wallerservices.com/schools-education-clients/

Waller Building and Glazing Services

In the last six years, Waller Building has worked in over 135 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor registered. We are also a Kent County Council approved contractor. All of our workmen are DBS certified. This means that our staff are suitable to work in schools. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide In Schools

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

Glazing Services We Provide In Schools

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
