New School Sports Hall Reception

Sittingbourne Community College has always been a school that tries to raise standards wherever it can. When they received additional funding from Sport England it was a perfect opportunity to invest in a new school sports hall reception.

The school's existing sports block had changed many times over the years. The time had now come to bring every element back in line to current regulations and, in doing so, provide a building that is welcoming and inviting to all those who use it. The addition of a new reception area for the after school clubs and a weekend facility, for the public, included a new disabled toilet. Further office spaces and improvements to the original changing rooms were also undertaken. Additionally a new ceiling- was installed, which included upgrading the lighting system, in the sports hall. This vastly improved the usability of the hall. The finishing touches included new windows and external cladding being replaced including the upgrading of insulation to meet current guidelines.

All of the works were overseen by building control to make sure all regulations and standards were met. The finished result was a major improvement. The students, staff and public now have environment ready for them to reach their full potential which we are extremely proud to have been a part of.

For information on other building and glazing projects that we carry out in schools, please click on the following link-https://wallerservices.com/schools-education-clients/

Waller Building and Glazing Services

In the last six years, Waller Building has worked in over 135 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor registered. We are also a Kent County Council contractor. This means that our staff are suitable to work in schools. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide In Schools

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

Glazing Services We Provide In Schools

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
