School Playground Groundworks

We carried out these local-School Playground Groundworks for Queenborough School and Nursery. They were looking to provide an additional playing area for the pupils. An area to the side of one of the school's buildings proved to be the perfect solution. The identified space had caused the school problems with ongoing maintenance due to bushes which needed to be cut back every year. Additionally, the area struggled with flooding due to large puddles forming after inclement weather. After we corrected the drainage by altering the inspection covers, the area was ready to receive the new tarmacadam surface. The project was completed with the installation of a new access ramp, with handrailing, to the building.

For information on other building and glazing projects that we carry out in schools, please click on the following link-https://wallerservices.com/schools-education-clients/

Waller Building and Glazing Services

In the last six years, Waller Building has worked in over 135 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor registered.- Additionally, all of our staff are DBS certified. This means that our staff are suitable to work in schools. Furthermore we would be happy to price any maintenance or refurbishment works for your school.
