New School Aluminium Doors

Waller Glazing Services were asked to install these new school aluminium doors for Challock Primary School near Ashford in Kent. The original single glazed Crittal doors had seen better days. We replaced the doors with aluminium double glazed doors. Red infill panels were used on the doors to match the existing school windows. Additionally, we designed the doors to have matching transom bars which provides uniformity with the existing windows. We also replaced the top light with a double glazed unit and completed the look with trim.

The new doors will provide extra security, improved thermal-efficiency and improve the look of the building.

For information on other building and glazing projects that we carry out in schools, please click on the following link-https://wallerservices.com/schools-education-clients/

Waller Building and Glazing Services

In the last six years, Waller Building has worked in over 135 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor registered.- Additionally, all of our staff are DBS certified. This means that our staff are suitable to work in schools. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide In Schools

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

Glazing Services We Provide In Schools

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
