## School Loft Conversion

St John's commissioned us to design and produce drawings and a specification for the construction of a new first floor office area. This was to enable them to go out for competitive tendering which Waller Building Services subsequently won. The works entailed ground floor alterations with the installation of a new purpose made staircase. Existing floor joists needed structural improvements and openings for the two new windows were formed. The new room had to be fully fire rated and insulated and include areas for storage and workstations.

## Waller Building and Glazing Services

In the last six years, Waller Building has worked in over 135 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor registered.- Additionally, all of our staff are DBS certified. This means that our staff are suitable to work in schools. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

## Building Services We Provide In Schools

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

## Glazing Services We Provide In Schools

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
