School Entrance Renovation

We carried out these school entrance renovation works at Wilshere Dacre Junior Academy in Hitchin, Hertfordshire. The academy requested that we replace the current wooden windows and double doors to the school's side entrance. We installed new white powder coated aluminium double doors and windows. The double glazed doors will add thermal efficiency and provide improved security. The new windows and doors also improve the look of the entrance which adds real character to the school building.

Waller Building Services Makes Structual Improvements

On this project Waller Building and Glazing Services worked together. The building department carried out structural repairs to the entrance to ensure that the building was safe and could be used for many more years to come.

Waller Building and Glazing Services

In the last six years, Waller Building has worked in over 135 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor registered.- Additionally, all of our staff are DBS certified. This means that our staff are suitable to work in schools. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide In Schools

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

Glazing Services We Provide In Schools

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
