School Security Privacy Fencing

Dorothy Barley Primary Academy required- school security privacy fencing to be installed along one side of their site. There is a pathway that runs along one side of the school and the existing fence left the playground very open and exposed. The school was concerned that passers by could distract the children during their break and requested a solution. The answer was fencing that was very secure and also provided privacy. The fencing that Waller Building Services installed was security fencing with additional wooden battens that fixed vertically into the metal framework. The new fencing means that the pupils can't be distracted and outsiders can't see in.

The school was very happy with the final results.

For information on other building and glazing projects that we carry out in schools, please click on the following link-https://wallerservices.com/schools-education-clients/

Waller Building and Glazing Services

In the last six years, Waller Building has worked in over 135 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor registered.- Additionally, all of our staff are DBS certified. This means that our staff are suitable to work in schools. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide In Schools

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

Glazing Services We Provide In Schools

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
