Gravesend School Toilet Refurbishment

Waller Associates were really pleased to carry out this Gravesend school toilet refurbishment. The works were part of an ongoing project for a private school.

This development involved a complete strip out of the school's main toilet block that had served the school well for over 30 years. By introducing modern materials and designs, the whole area has undergone a complete transformation as can be seen in the photographs above.

The children love the new bright and vibrant images on the doors. The pupils were invited by the school to choose the final design that would be installed. The final results are amazing, well done to the pupils!

For information on other building and glazing projects that we carry out in schools, please click on the following link-https://wallerservices.com/schools-education-clients/

Waller Building and Glazing Services

In the last six years, Waller Building has worked in over 135 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor registered.- Additionally, all of our staff are DBS certified. This means that our staff are suitable to work in schools. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide In Schools

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

Glazing Services We Provide In Schools

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
