Respite Centre Refurbishment

We were successful in winning the respite centre refurbishment works through Medway Council. The works entailed converting and refurbishing a short stay centre for children with various types of disabilities and needs. The project consisted of stripping out existing partitions and sanitary ware. New partitioning walls were relocated to form bedrooms, staff rooms, offices and toilets. Additionally, a laundry room, an assisted changing room and an en suite bathroom were also installed. Due to the nature of the building, specialist equipment was installed including a height adjustable bath, nursing bench,- a ceiling hoist with track. This ensured an improvement to the original facilities which will benefit the nursing staff and the patients alike.
