School's New Entrance Gates

This school's new entrance gates project was slightly different due to there being two separate schools on one site. The entrance to the site serviced both schools and the current gates needed to be replaced. Having worked with both schools in the past, they approached us to replace the existing gates which were deteriorating. The pedestrian and vehicle entrance gates were old, tired and unfunctional. We replaced the gates with a new secure, modern twin mesh version. This has created a bolder, more aesthetically pleasing entrance to the two schools whilst improving the overall safe guarding.

For information on other building and glazing projects that we carry out in schools, please click on the following link-https://wallerservices.com/schools-education-clients/

Waller Building and Glazing Services

In the last six years, Waller Building has worked in over 135 schools. Our reputation in the education sector is growing fast. The building services we provide include smaller refurbishments through to extensions and new builds. Waller Building is a Fensa, Chas, Constructionline and Safecontractor registered.- Additionally, all of our staff are DBS certified. This means that our staff are suitable to work in schools. Furthermore we would be happy to price any maintenance or refurbishment works for your school.

Building Services We Provide In Schools

We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

Glazing Services We Provide In Schools

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
