New School Canopy Installation

Waller Building Services' new school canopy installation will offer pupils shade in the summer and shelter on wet days. Although the building is very new, the school soon noticed that shaded areas were required outside of the classrooms. A quick and affordable solution was to install this canopy which is modern looking and compliments the new school building. The canopy currently provides cover for one of the classrooms. However the school are so pleased with the result that they are considering installing additional canopies to the entire south facing elevation of the school.
