Junior School Window Installation

The Hempstead Junior School window installation is the second in a three part project awarded to Waller Glazing from Medway Council. All of the works were carried out during the school summer holidays.

The old windows were past their best and needed replacing. We installed new double glazed, uPVC windows throughout the whole school. Additionally, we also replaced all of the existing external doors with commercial aluminium upgrades. The school can now enjoy improved security and superior thermal efficiency which will mean cheaper heating costs in the future.

The smooth running of this project ensured that we were on schedule to install the windows at Hempstead Infant school before the end of the summer holidays.

Building Services We Provide In Schools

The building services we provide include smaller refurbishments through to extensions and new builds. We cover all the building as well as glazing services that a school would require. This includes, toilet and kitchen refurbishments. We also install fencing, flooring and carry out complete new builds. Check out our website case studies to see projects we have recently completed.

Glazing Services We Provide In Schools

We carry out works from window and hinge repairs through to complete aluminium and uPVC window and door installations.
