School Fencing

The school fencing at Kemsley Primary Academy has recently been installed by Waller building Services. The school was in need of a good quality barrier to seperate classrooms and playgrounds. This replaced the original wooden fencing that was starting to break up. A new powder coated green, bow top fence was installed around the perimeter of the play area. Additionally, four bright yellow bow top gates were also installed.

The new fencing has really done the job and exceeded the expectation of the school. We have received extremely positive feedback from the school.
