Colourful School Toilet Refurbishment

We carried out this colourful school toilet refurbishment project during the school summer holidays. Four toilet blocks received the full makeover treatment. Years 4 and 5 boys and girls toilets needed refurbishing. We changed the previous layout to maximize space allowing for extra toilet facilities.- We did this by removing internal walls and, in the boy's toilets, the urinals. This created the additional space required. Both boys and girls toilets had a bright, new colourful cubicle system installed. Each toilet had bright colour scheme creating it's own individual look.

Complete Refurbishment

Each refurbished toilet received the full works. Suspended ceilings with LED light panels, new flooring, wash hand basins with tiled splash backs and mirrors were installed. Additionally, hand dryers were fitted in every toilet. The results are bright, colourful and individual toilets that are easy to clean and maintain.

The school are very happy with the transformation of the new layout and style of the toilets and are hoping to give the school's remaining toilets the same treatment in the future.
